JEZEBEL S. GAUIRAN

CAREER OBJECTIVES

As an aspiring web developer with a solid foundation in C#, HTML, CSS, JavaScript, and PHP, I am committed to using my skills to design attractive and functional websites, as well as to develop reliable backend systems. My technical proficiency enables me to handle various aspects of web development, ensuring that I deliver complete and effective solutions. I actively follow the latest trends in technology to enhance my knowledge and skills. I am seeking a rewarding role in a dynamic team where I can contribute meaningfully, collaborate with like-minded professionals, and continue to grow my abilities in creating exceptional software and web applications.
